Sahi Re sahi mp3 Punha Sahi Re Sahi (Marathi) ?????? ???? ???? ???? is a 1955 Marathi comedy play written by Sukhlal Parikh, directed by Baldev Kale, and produced by Sunil Joshi. The play won the prestigious Dadasaheb Phalke Award as the most talented new Marathi play in 1955. The play was the first Marathi play which won the Dadasaheb Phalke Award. The play was also a very successful run in Bombay. This was also the first Marathi play to be televised. This one is the Marathi play which I liked the most. It was mostly due to the wonderful performance of the famous playback singer late Satishkumar. So, if you are a fan of the folk songs and this classic play then you can check it out. It is a short play, which plays like a good story which keeps you glued to the screen. The music and dance are very intense. The music was composed by Rajan-Nagendra of Rajan-Nagendra Group and Gangadhar-Rajan-Sukumar. The songs are very popular from those times. It is also good to mention that the dialogues are so powerful that the audience starts laughing before the play has started. Another amazing thing about this movie was a very good Marathi dubbed version made in 2006. This movie was mainly based on the famous Marathi play Sahi Re Sahi. The concept of this movie was so true, that it feels like it is entirely based on the play. Other than this, there are also a few other good Marathi movies. So, you can check them out. Punha Sahi Re Sahi is available online on ajanta.com View More From Sahi Re Sahi Punha sahi re sahi - Reena and Dilip (both played by Bharat Jadhav) are friends. Dilip has no intentions to marry. But Dilip is shy as a man. Reena goes to Dilip's home to ask him when he will get married. Bharat Jadhav (Marathi: ??? ?????) is an actor and producer in Marathi 1678ea9f9e
